Short description

3842546541

Description

3842546541 SET ROLLERS SET4, ESD is an original Bosch Rexroth product, designed for profile accessories. This set includes two guide rollers and two guide rollers with stop, providing fixed and variable separation. Made from bent sheet metal for opening, the product ensures superior quality and local support through CreatX Technology SRL. Ideal for use in ESD environments, this roller set is perfect for containers and drawers, highlighting technical advantages and durability.
