3842546560 SAFETY SET TILTING LEVER Bosch Rexroth

Reference: 3842546560

Short description

3842546560

Description

The 3842546560 tilting lever, known as the Safety Set, is an excellent solution for retrofitting EcoSafe protective frames. Recommended for frames wider than 1500 mm, it ensures efficient bilateral mounting. Compliant with Directive 2006/42/EC, the lever allows the protective frame to pivot outward, preventing it from falling. An original Bosch Rexroth product, available with local support from CreatX Technology SRL, it offers superior quality and reliability.
