3842546564 ARTICULATION 45X45 LOCKABLE Bosch Rexroth

Reference: 3842546564

Short description

3842546564

Description

The 3842546564 ARTICULATION 45X45 LOCKABLE from Bosch Rexroth offers a 180° range of motion with easy adjustment in 5° increments. Perfect for adjustable or fixed profile joints, it supports heavy loads up to 100 Nm in the pivot direction. The Hirth serration ensures form-fitting, and the auxiliary 5° gradation marking aids in angle recognition. The articulation can be comfortably clamped and adjusted using clamps, tightening levers, or screws. No profile processing is required, compatible with 45x45 and 45x45 support articulations. Original products, local support through CreatX Technology SRL.
