3842555616 Angle 180x180 Dynamic Load Bosch Rexroth

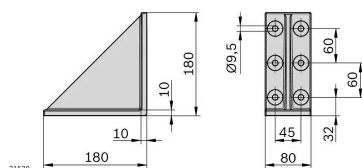

Reference: 3842555616

Short description

3842555616

Description

The 3842555616 product, Angle 180x180 Dynamic Load, is a Bosch Rexroth heavy-duty connector, perfect for supporting large forces, both static and dynamic. This profile accessory requires no profile processing and includes a fixing set. It is compatible with profiles of 90x90, 90x180, and 90x360. An original product, offered with local support through CreatX Technology SRL, ensures a secure and efficient connection, included in the MTpro design software for force calculation.
