R911295325 Control Device HMS01.1N-W0054-A-07-NNNN Bosch Rexroth

Reference: R911295325

Short description

R911295325

Description

The R911295325 control device HMS01.1N-W0054-A-07-NNNN is a single-axis inverter supplied with DC voltage, generating a regulated AC output voltage with variable amplitude and frequency for motor operation. It features a mounting slot for a single-axis control unit with various interfaces for connection to the automation environment, encoder systems, safety technology, and other digital and analog signals. For multi-axis applications, the inverters are powered from the DC bus of supply units HMV01 or HMU05. Supply from the DC bus of an HCS converter is possible for smaller axis packages with the corresponding power reserve of the HCS. Original products, local support through CreatX Technology SRL.
