R911309079 Control Device HMS02.1N-W0054-A-07-NNNN Bosch Rexroth

Reference: R911309079

Short description

R911309079

Description

The R911309079 Control Device HMS02.1N-W0054-A-07-NNNN is a single-axis inverter powered by DC voltage, generating a regulated AC output voltage for motor operation. It features an integrated control unit slot with various interfaces for connecting to the automation environment, encoder systems, safety technology, and additional digital and analog signals. Multi-axis applications are powered from the DC bus of the HMV02, and for smaller axis packages, supply from an HCS converter is also possible. Original Bosch Rexroth product with local support from CreatX Technology SRL.
