R900248533 PROPORTIONAL VALVE 4WRTE32W6-600L-4X/6EG24 TK31/A1M Bosch Rexroth

Reference: R900248533

Short description

R900248533

Description

The R900248533 PROPORTIONAL VALVE 4WRTE32W6-600L-4X/6EG24TK31/A1M is a high-quality industrial hydraulic valve, ensuring reliable control of oil flow direction. With high precision due to the internal piston position retraction and nominal size 32, this original Bosch Rexroth product is perfect for industrial applications. Electrically operated with integrated electronics and 24 VDC operation, it guarantees superior performance. Enjoy local support through CreatX Technology SRL.
