R900775296 PROPORTIONAL VALVE 4WRKE10W6-100L Bosch Rexroth

Reference: R900775296

Short description

R900775296

Description

R900775296 PROPORTIONAL VALVE 4WRKE10W6-100L ensures reliable control of oil flow direction, with high precision due to the internal piston position feedback. This industrial hydraulic valve is perfect for high-power applications, featuring integrated electronic components. Original Bosch Rexroth products are locally supported by CreatX Technology SRL.
