R900786398 PROPORTIONAL VALVE 4WRTE10E50L-4X/6EG24K31/F1V Bosch Rexroth

Reference: R900786398

Short description

R900786398

Description

The R900786398 PROPORTIONAL VALVE 4WRTE10E50L-4X/6EG24K31/F1V is a high-quality industrial hydraulic valve, ensuring reliable control of oil flow direction. With high precision due to the internal piston position retraction, this original Bosch Rexroth product guarantees superior performance. Nominal size 10, symbol E, electric with integrated electronic components, operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
