R900976693 PROPORTIONAL VALVE 4WRTE25W8-350L Bosch Rexroth

Reference: R900976693

Short description

R900976693

Description

The R900976693 4WRTE25W8-350L proportional valve is a high-quality industrial hydraulic valve, ensuring reliable oil flow direction control. With high precision due to the internal piston position feedback, this original Bosch Rexroth product is perfect for industrial applications. The nominal size of 25 and W8 symbol guarantee superior performance. Electrically operated with integrated electronics, it operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
