R901065549 PROPORTIONAL PRESSURE RELIEF VALVE DBET-6X/100YG24K4V Bosch Rexroth

Reference: R901065549

Short description

R901065549

Description

The R901065549 DBET-6X/100YG24K4V hydraulic valve is an original Bosch Rexroth product, perfect for industrial applications due to its reliable pressure relief at nominal signal. With nominal size 6 and 24 VDC electric operation, it offers superior quality and local support through CreatX Technology SRL.
