R901259462 PROPORTIONAL VALVE 4WRTE25E1-350P-4X/6EG24 ETK31/F1M Bosch Rexroth

Reference: R901259462

Short description

R901259462

Description

The R901259462 PROPORTIONAL VALVE 4WRTE25E1-350P-4X/6EG24ETK31/F1M is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to the internal piston position retraction and nominal size 25, this original Bosch Rexroth product is perfect for industrial applications. Electric, with integrated electronic components and operating at 24 VDC, it guarantees superior performance. Enjoy local support through CreatX Technology SRL.
