3842535482 BASIC Table Plate ESD 1000X555 Bosch Rexroth

Reference: 3842535482

Short description

3842535482

00120075

Description

The 3842535482 BASIC Table Plate ESD 1000X555 is perfect for mounting Rexroth workstations, providing a robust solution for various mechanical tasks. Configurable with variable or fixed dimensions, this plate is coated with hard laminate, ensuring superior resistance to friction, impact, and scratches. It is resistant to organic solvents, weak acids, alkalis, gasoline, and oil, and withstands temperatures up to 180 °C. Available in ESD conductive version, it ensures safe discharge of electrostatic charges. Original products, local support through CreatX Technology SRL.
