3842564671 Support Plate 8, Quick 0 2-6MM Bosch Rexroth

Reference: 3842564671

Short description

3842564671

Description

The 3842564671 support plate, Quick 0° 2-6MM type, from Bosch Rexroth, is ideal for securing surface elements in front of the profile. It allows for subsequent mounting in closed frame constructions and ensures nearly gap-free fixation of surface elements with thicknesses between 2 and 6 mm. Original product, offered with local support through CreatX Technology SRL, complies with the technical equipment directive 2006/42/EC.
