R911388677 CONTROL XM2200.01- 01-31-31-001-NN-101NNNN Bosch Rexroth

Reference: R911388677

Short description

R911388677

Description

The compact XM control platform, code R911388677, is ideal for various Motion Logic applications. The local connection of the S20 I/O modules extends the control for high-performance process connection. Decentralized I/O stations can be easily integrated via fieldbus couplers. Optional extension modules add further functions. The robust design simplifies handling and allows for a wide range of applications. Technical features: IP20 protection, CPU Intel ATOM E660 1300 MHz, simple and flexible I/O integration, Gigabit Ethernet, USB, SD card slot, diagnostic LED, centralized and decentralized control topologies, modular expansion options, on-board Sercos master with 250 µs cycle time, robust design with extended temperature range. Original products with local support through CreatX Technology SRL.
