R911410172 CONTROL DEVICE XMD 2-W2323ANN-01NETT0NNNN- S03RSN1NNNN0NN Bosch Rexroth

Reference: R911410172

Short description

R911410172

Description

The Bosch Rexroth control device XMD2-W2323ANN-01NETT0NNNN-S03RSN1NNNN0NN provides an advanced solution for dual-axis motor control, powered by DC voltage and generating a controlled AC output with variable amplitude and frequency. It is compatible with XVE2 or XVR2 supply units and XCS2 or XCD2 converters. It offers additional options for demanding applications and can be expanded with ctrlX SAFETY for safety-related applications up to SIL3. Benefit from ideal adaptation to machine requirements and a compact design, saving space in 300 mm control cabinets. Plug & Play technology and reduced cabling enhance efficiency and ease of installation. Original products, local support through CreatX Technology SRL.
