R914503913 CONTROL DEVICE

Bosch Rexroth

Reference: R914503913

Short description

R914503913

Description

The XMD2-W7070ANN-01NETT0ECNN-S03RSN1NNNN0NN control device from the ctrlX DRIVE series is a double-axis inverter powered by DC voltage, generating a controlled AC output voltage for the operation of two motors. It is powered from the DC bus of the XVE2 or XVR2 supply units and/or the XCS2 or XCD2 converters. With optional function packages, demanding applications can be realized, and the hardware can be expanded with ctrlX SAFETY for safety-related applications up to SIL3. It features free selection of the motor encoder and an optional multi-encoder interface. Its compact design saves space, making it ideal for 300 mm control cabinets. Plug & Play technology and reduced cabling are significant advantages. Original products, local support through CreatX Technology SRL.
