R914504288 CONTROL DEVICE XMS 2-W0054ANN-01NETT0ECNN- S03RSN1NNNN0NN Bosch Rexroth

Reference: R914504288

Short description

R914504288

Description

The XMS2-W0054ANN-01NETT0ECNN-S03RSN1NNNN0NN control device uses DC voltage to generate a controlled AC output voltage of variable amplitude and frequency for motor operation. Powered by the DC bus of XVE or XVR supply units and/or XCS or XCD converters, this device offers advanced functionalities for demanding applications. Technical features include optional multi-encoder interface and adaptability to machine requirements. The compact design saves space, and Plug & Play technology simplifies installation. Original product, local support through CreatX Technology SRL.
